# HYBRID CYPRIPEDIUM PLANTS

## SPECIAL CATALOGUE

This catalogue contains offerings of mature *Cypripedium* hybrids. All plants have bloomed in the Clarelen range; the descriptions are based upon the entire group of plants of each hybrid. Since the plants are mature, prices are based upon quality of flowers, including size and intensity of coloration.

In addition to the plants listed here, we have several hundred other crosses which are available in small numbers. If you will give us some idea of your needs, we shall be happy to forward a special quotation.

The names of the hybrids listed follow those in the 1947 edition of Sanders where possible. Plants will be shipped by Railway Express unless Air Express is specified. Terms: cash before shipment; packing free of charge; shipping costs are in addition.

Plant No.	NAME AND DESCRIPTION	Price per Pot
1203	<b>RALPH BERRY F.C.C. x BALDUR, WESTONBIRT var.</b> - - - - - Flowers are of medium size and have the baldur type of coloration and shape.	\$15.00
1210	<b>AUREUM LACKENSE x CHESHAM</b> - - - - - The good-sized white standard is marked with a central area of light purple.	\$20.00
1213	<b>GOLD MOHUR x J. M. BLACK, BECKSTON'S var.</b> - - - - - The standard is nicely spotted on white and green. The flowers are well proportioned and of good size.	\$35.00
1214	<b>DIANA BROUGHTON F.C.C. M.O.S. x DIXON THORPE</b> - - - - - The background color is yellow-green suffused variously with brown. The upper third of the sepal is white; the lower part is spotted with small areas of brownish-purple.	\$10.00
1215	<b>ANSUN x SUNBEAM, PITT'S var.</b> - - - - - Flowers are of medium size and are yellow green. There is a tendency to spotting on the dorsal of some plants.	\$10.00
1226	<b>DIANA BROUGHTON x GERTRUDE WEST, var. OTHELLO</b> - - - - - Flowers have yellowish-green background suffused somewhat with ruddy brown. The standard contains a good deal of white, partially overlaid with purple spots.	\$12.50
1228	<b>POOTINGS (Gwen Hannon, F.C.C. x Grace Darling var. elegans)</b> - - - - - The white of the standard contrasts nicely with the yellow-green petals and sepals which have a suffusion of brown.	\$10.00
1229	<b>KIVAR x ELSBETH, F.C.C., M.O.S.</b> - - - - - The dorsal sepal has a good deal of white, the amount varying from plant to plant A center strip of red-purple may be present, together with spots of various sizes. The pouch and petals are light brownish-green.	\$12.50

Plant No.	NAME AND DESCRIPTION	Price per Pot
1874	<b>CYMBELINE (Evenlode x Hesketh)</b> - - - - - Rich brown sepals and pouch. The dorsal sepal is white and spotted with deep purple. A large nicely marked flower.	\$50.00
1946	<b>ANITA x SANACDERAE, CRAVEN'S var.</b> - - - - - The petals and pouch are greenish-yellow. The upper half of the standard is white; the lower green, marked with fine purple spots.	\$20.00
1947	<b>BAHRAM (Anita x Grace Darling)</b> - - - - - The flowers have yellow-green petals, pouch and basal portion of standard. Petal margins are nicely undulated.	\$20.00
1954	<b>BURNHAM x WARRIOR</b> - - - - - Flowers are of good size and conformation. Purple spots are nicely disposed over white and green areas of the standard. Petals and pouch are a warm brown.	\$30.00
1956	<b>BURNHAM x ALDERMAN</b> - - - - - Flowers are well formed. Standard has mid-stripe of purple and is mostly white. The remainder of the flower is tan, the petals having a darker mid-stripe.	\$30.00
1957	<b>BURNHAM x WINDRUSH</b> - - - - - Pouch and petals are green variously veined and suffused with dull brown. The standard is white and is ornamented with well-distributed irregular purple spots.	\$30.00
1968	<b>CORSAIR x CLAIRE DE LUNE</b> - - - - - Leaves are finely mottled. Petals are clearly veined, a little deflexed, and tinged with light purple at their tips and lower sides. Pouch is brown and has shape reminiscent of Fairieanum. The standard is lined with bold stripes of brownish purple over white.	\$15.00
1971	<b>CAPPA MAGNA x HIAWATHA var. ST. MARY'S</b> - - - - - Plants of this hybrid produce flowers which resemble hirsutissium in shape and disposition of floral parts. The standard may be green or cream, ornamented with closely grouped dots of brown. The petal tips are either mahogany or purple.	\$20.00
1973	<b>CHESHAM x FLORENCE SPENCER</b> - - - - - White dorsal sepals ornamented with dark purple or reddish purple spots of various sizes.	\$30.00
1976	<b>CHESHAM x GWENPUR</b> - - - - - The standard is broad and almost entirely white. The central part and basal third is colored with reddish purple which may be diffused to some extent.	\$30.00
1987	<b>GRACE DARLING x GLORITA</b> - - - - - Pouch and petals yellow. The dorsal is white in its upper third and has some spots in the yellow-green at its base.	\$15.00
1989	<b>GRACE SPENCER (Grace Darling x Florence Spencer)</b> - - - - - Petals and sepals yellow green. Dorsal sepal white, sparingly ornamented.	\$10.00

Plant No.	NAME AND DESCRIPTION	Price per Pot
1992	<b>GOLDEN MORN x MERLIN</b> - - - - - Some plants have flowers with a large white area in the standard, marked with a central, purple stripe and spots of small size. Pouch and petals are yellow green suffused variously with brown.	\$20.00
1993	<b>GOLDEN MORN x FLORENCE SPENCER</b> - - - - - Yellow pouch and petals suffused with brown. In some plants the standard is spotted while in others there may be a brown basal area superimposed over a background of green.	\$15.00
1997	<b>GOLD MOHUR x J. M. BLACK</b> - - - - - The petals and pouch are a richly shaded brown. The standard is marked with dark purple spots of various sizes.	\$25.00
2030	<b>MACORSLEY (Macaw x Worsleyii A.M.)</b> - - - - - Bright flowers of good size and texture. Petals and sepals are deep reddish brown to almost dark wine-colored and glossy. The standard sepal is marked heavily with irregular areas of wine red. A few plants have spotted standards.	\$30.00
2031	<b>VIGOROUS (Cappa Magna var. F. Sander x Spicerianum)</b> - - - - - Flowers are medium size and rounded shape. The standard is clear, velvety and white. Pouch and petals are green.	\$25.00
2033	<b>CASCADE (Etta x Lucullus)</b> - - - - - Pouches and petals are flushed with reddish purple. The standard is spotted boldly with large purple areas.	\$30.00
2036	<b>ERIAD (Grey Friar x Eventide)</b> - - - - - Standard sepal is almost entirely of a color near amaranth purple although the upper part may be clear white. The petals are tan flushed with red; the pouch is lighter.	\$50.00
2038	<b>ONESCA (Norreys x Cameo)</b> - - - - - Flowers have good texture and size. The dorsal is white and is ornamented with purple ture are outstanding. The pouch and petals are ruddy brown.	\$45.00
2044	<b>WOLSTED (Swallow x Easter Hero)</b> - - - - - Standard sepal is largely white with well distributed purple spots. Its shape and texture are outstanding. The pouch and petals are ruddy brown.	\$60.00
2049	<b>DALLA (The Ghurka x Luna, A.M. var.)</b> - - - - - There are several varieties within this group of hybrids. One has glossy green floral parts. The petals and the lower one-third of the standard are marked with dark mahogany. The other type has a somewhat broader standard which has a white background spotted centrally with brown on a cream background.	\$35.00
2051	<b>ATRA (Gold Mohur x Golden Wren)</b> - - - - - Standard sepal has dark spotting over green background. Petals are flushed brown. Large and striking.	\$25.00
2076	<b>BROTHER CARLMAR (Cardinal Mercier x Grey Friar)</b> - - - - - This hybrid exists in a surprising diversity of forms and patterns of coloration. All are superior, however, in size, shape, texture, and quality of color.	\$60.00
